personal profile

I am a very dedicated, enthusiastic and highly motivated individual. I am quick to learn any new task and I am constantly seeking to increase my skills. I have amassed a lot of experience over the years including great client skills and I am confident being left to get on with the work required, I use my initiative creatively as well as working to the strictest specifications and tightest deadlines. I work well under pressure and am great at motivating those around me to work to the best of their abilities, I am a good brainstormer, problem solver and I thoroughly enjoy working in the studio environment. I have been an active graphic designer for over 20 years and have a healthy portfolio of printed work which I can bring to any interview.

I am an outgoing and friendly person, with excellent communication skills who enjoys meeting all types of people. I am punctual, reliable and I can supply excellent references. I have a current full driving licence and I am available to start work immediately.

interests

In the last year I have taken up the bass guitar, I enjoy it very much, although I always seem to end up playing 'Stooges' riffs on a Friday night! I also enjoy keeping fit, swimming, photography, movies, reading and music. I have always had a fascination for Sharks ever since my parents took me to the cinema to see Jaws as a child. I swam with them a few years ago, now I dream of one day going to South Africa and diving with the Great White Shark. I really want to go wingwalking next year too.

Recently I have started to sell my artwork online, I have my own online store 'BitemarkApparel' where I add my designs to clothing and products (see links).
